

ELEVENTH ANNUAL
APHA
FILM
FESTIVAL

Health Communication Working Group

Mon, Nov 17 - Wed, Nov 19, 2014

The world's first and largest film festival dedicated to public health.

The 11th annual APHA Film Festival has over 50 videos that will be screened over the course of the conference. Nine sessions will show excerpts of submitted videos from the US and abroad and three special, themed sessions will feature films followed by discussion with expert panelists. CE credits available; please check listing.

Waiting Room

Monday, Nov. 17 at 8:30am - 10am

Session #3037: The Waiting Room will be screened during the first themed session. The Waiting Room is a character-driven documentary film that uses extraordinary access to go behind the doors of an American public hospital struggling to care for a community of largely uninsured patients. The film – using a blend of cinema verité and characters' voiceover – offers a raw, intimate, and even uplifting look at how patients, staff and caregivers each cope with disease, bureaucracy and hard choices.

Digital Media & Youth: Beware, Be Wary, Be There!

Monday, Nov. 17 at 2:30pm - 4:00pm

Session #3356: The rapid proliferation of electronic devices and their widespread ownership and use have given us all unprecedented access to, and consumption of, images and information—and its impact has cause for concern, especially among youth. Extended clips from Beware of Images, The Mask You Live In and Hot Girls Wanted will be presented by their directors or others involved in the making of the films. Two educational short videos about online safety for youth will be screened.

The Anonymous People

Tuesday, Nov. 18 at 10:30 am - 12pm

Session #4128: The Anonymous People is the moving story of those dealing with drug addiction told through the faces and voices of the leaders, volunteers, corporate executives, and celebrities who are laying it all on the line to save the lives of others just like them. This passionate new public recovery movement is fueling a changing conversation that aims to transform public opinion, and finally shift problematic policy toward lasting recovery solutions.
